Last Meeting

By The Editor

Brian Norris gave the *behind the badge* address at the last meeting. He talked about his life in Gilgandra and Goulburn after having been born at Dubbo in 1943. He went to school mainly in Goulburn joined Westpac in 1959, left after three years to

become a theological student, after graduating he decided that being a priest was not for him and became a Commonwealth Public Servant working in defence, personnel, the Met Bureau and Aviation. He joined the Anglican Church in 1983 as a business manager and more or less saw the world (like the navy). He enjoys Sale and being a member of the Sale Central Rotary Club.

Adrian Rijs of Parties Bakery spoke to us about the Patties Pies business at Bairnsdale which manufactures Patties, Wedgewood, Adams and Four and Twenty products. He showed us some slides of the factory which employees around 200 people. He responded to questions including “What is the future of the pie?” A raffle for a pack of Patties products raised \$126 and the fines raised \$70 all to go to the bike readers featured on the front cover.

**John Teychenes 50th Birthday
Speech**

In my life of 50 years I have had many challenges, mysteries and fun.

In that time I have.....

Woken up on 18,250 mornings, generally.

Have had 18,250 sleeps of approx 8 hours that equals 146,000 hours or 6083 days or 869 weeks or 217 months, or just over 18 years and two weeks comatosed.

I have had a bath or shower most days and used approx 25 litres of water daily or 456,250 litres of water so far. The Sale pool hold approx 456,251 litres of water.

Brushed my teeth with approx 30 strokes daily or 547,500 strokes so far, for long enough to start 50,000 cold lawn mowers @ 10 strokes each.

Have spoken approx 2000 words a day or 36,500,000 words so far... the Bible is only 60,000 words, War and Peace is only 10,000 words, all this with the odd swear word.

I have kissed others approx 2000 times, that means I have held my breath for approx 10secs each kiss or by 2000 secs or 333mins or 5.5hrs

I am further perplexed by memory as you may know, a person who reaches the age of 50 will have met and known many hundreds even thousands of people in their lifetime.

When we see and greet old friends and acquaintances, society expects that we greet them with their name/s. The resumption of relationships with old friends is generally about old experiences and names, and that can often require memory strain.

I find memory amazing, in that you can often remember a kid’s name who fought you at primary school 40 years ago. You can often remember the names of old girlfriends when you were 16, and you will never forget the names of people who owe you money.

YET, we are expected to know a persons name from the list in our head that may also carry thousands of names, events, facts, history, technical data that we expect to retrieve in time of varying from 1 sec to 20 secs or the time it takes to approach your old friend in the street.

AND if we are wrong, expect the worst.

That is my say, so there, it is my party and I will cry if I want to.
